

Watlington Community Primary School

Acorn Remote Learning

In maths, please follow the link below for a video and worksheet to allow children to practise counting to 5.

<https://classroom.thenational.academy/lessons/to-count-five-objects-reliably-6xj6at>

For English today, please watch the attached video about writing sentences. There is an opportunity for your child to write the given sentences from the video, but they might want to also write their own sentences about Spring, remember to think carefully about capital letters, finger spaces, full stops and phonics.

In Art/PSHE, children are to make a Mother's Day card or a card for an inspirational and loved female in the children's life. They may have their own ideas of what to use for the front, but they may want to consider a picture of:

- Their mum/ inspirational female
- Something which you do together

I have also included some images below for a few ideas:
