

Willow News

Friday 7th December 2018

Continuing to focus on the presentation in work, the children will be encouraged to produce neat work in their extended written tasks in topic too.

After reading several examples, the children have identified the features of information texts. Next week we shall box up before composing our own hot write. The word of the week is: **kindle**. Next week, the children will also write a story on the theme of rescue, be assessed in SPaG and reading.

After an initial review of perimeters, the children learned to calculate the area of basic and **compound shapes**. Next week, we shall review and assess what the children have learnt in Maths this term.

During the topic lessons, the children researched information about the use of runes to communicate in the period of the Anglo-Saxons. Furthermore, they have learned to log into and log out safely into their official school email accounts. Next week, they shall email their attachments to their parents. We must continue to reinforce the responsible and safe use of their email accounts. All school emails are monitored by Mrs McGlone.

Additionally, the children have been practising their carols and rehearsing their words for the assembly and the play.

Please continue to support your children in the revision of the times table facts daily and summarising regularly after reading.

Some dates to remember:

- 13th December: Y5 to accompany their Acorn buddies at the Christingle service
- 14th December: Y5 achievement assembly
- 17th December: KS2 Christmas Concert
- 18th December: Last day of the term

Have a good weekend.

Team Willow
